The delegates are to be selected by districts, the total representation of the county amounting to forty-five.

Chairman Agee was unanimously endorsed by the committee to succeed Col. Hayes, who resigned as State committeeman from Weber county. No local committee can be elected by the local committee, and, by unanimous vote, they asked the State convention to recognize Mr. Agee as the successor of Col. Hayes.

The committee also endorsed the candidacy of F. J. Henderson as temporary chairman of the convention.

### DEED HELD TO BE

A SECOND MORTGAGE

Special to The Tribune.

OGDEN, March 19.—Judge Rolapp has handed down an opinion in the case of William M. Bestup vs. Charles Taylor, involving the title to certain lands in Riverdale precinct. The court decides in favor of the plaintiff. The question at issue was whether or not a deed to the property given subsequent to the giving of a mortgage thereon was a mortgage or a deed of transfer. The court holds that it is simply a mortgage. The plaintiffs were represented by R. S. Farnsworth and the defendants by Judge Magnus and Charles Stout.

### ASK PHYSICAL EXAMINATION OF PLAINTIFF IN DAMAGE SUIT

Special to The Tribune.

OGDEN, March 19.—A novel petition has been filed before Judge Rolapp in the Second Judicial court here. It is in the nature of a request that the plaintiff in a damage suit for personal injuries be subjected to an examination by physicians to ascertain the extent of his injuries. The petition is filed in the case of William M. Hughes vs. J. P. O'Neill. The former alleged that he was injured by a defective derrick in a stone quarry at Crofton, and sued for \$10,000 damages.

Stegner alleged that he put his head out of a coach window and by reason of the uprights of a bridge the train was crossing built too close to the track his head came in contact with one of them and his skull was broken, permanently injuring him. Judge Magnus is the attorney for the plaintiff.

rise has been rapid. He immediately entered upon the practice of law, and at the election of 1901 was nominated on the Republican ticket for Municipal Judge and elected. He made an enviable record not only as a criminal but as a civil jurist, and last fall was re-elected by an increased majority. He is a nephew of Congressman Joseph Howell and is one of the staunchest Republicans in the party. His name is being prominently mentioned for the Republican nomination for District Judge to succeed Judge Rolapp.

### Interpretation of Julius Caesar.

Special to The Tribune.

OGDEN, March 19.—Mrs. Rolla S. Farnsworth gave by request her interpretation of Julius Caesar to the Shakespeare students, who were entertained by Mrs. Dexter N. Hansen. "The Tragedy of the World's Way," Mrs. Farnsworth called her lecture. She gave a large yet subtle review of the play, making Caesar the hero. "Brutus," like the rest, was a partial failure, and the great honor of the play is not failure or success, but the mighty power of the spirit, and the eternal beauty of art.

Miss Henderson's April 1st.

### UGLY FIRE AT LEHI; GOOD DEPARTMENT WORK

Special to The Tribune.

LEHI, March 19.—About 1 o'clock last night fire was discovered in a small building adjoining the city hall, and for a time threatened the destruction of the city hall and the opera-house and business blocks adjoining. The fire department responded and had the conflagration under control in a short time. The building in which the fire originated and which was used as a storehouse was destroyed and the city hall was damaged. Several boxes of electric light globes, election booths and other material were burned, the total loss reaching probably \$250 or \$300.

The origin of the fire is a mystery and Sheriff Harmon is over from Provo trying to solve it. There is no stove in the room, and Nightwatchman John D. Woodhouse had left the city hall but a short half-hour before the fire was discovered. The officers think it was the work of an incendiary, for when the fire was discovered all the doors were wide open, as if to give the flames plenty of air, and had Policeman Woodhouse not arrived at the time he did and closed the door between the city hall proper and the burning building the City Council would have had to meet in a rented chamber.

NOTES.

Messrs. Otto Hudson and S. J. Taylor have sold to the United States Smelting and Refining company their limestone quarries at Rush valley, near Twelve Mile pass. The consideration was \$7000, and the smelting people will connect the quarry with the San Pedro, Los Angeles & Salt Lake railway with a switch about a mile in length. The rock is declared to be ideal for fluxing purposes and in a short time will be made to furnish the United States people with about 250,000 tons per day, the amount now being consumed.

The Utah County Light and Power company is again supplying the people with lights. For three days the towns in the north end of Utah county have been without power because of a break in the power company's pipe line about half a mile above the power plant. The break was caused by an immense landslide which crushed the pipe line.

### DOINGS AT MERCUR.

Special to The Tribune.

MERCUR, March 19.—Last evening, in the Golden Gate saloon, an Italian of the name of Christmas Riley made a murderous assault with an old shoe-maker's knife upon John Seren, proprietor of the Gate saloon. It appears that Seren and Riley had some dispute over a saloon he owed by Riley. The dispute was settled at the time by Seren saying, "Well, you owe the bill, but if you don't want to pay it, all right." Riley then left the saloon, returning later in the evening just as Seren had put on his coat after having relieved and was walking towards the door. Riley said, "All right," said Seren. They then talked for some time.

Riley then asked Seren to have a drink and placed a 50 cent piece on the bar and just as H. W. Mohr, who is tending bar, stepped up and asked them what the pleasure was, Riley drew the knife and made a vicious stab at Seren cutting him on the left cheek, laying it open to the bone, which turned the knife. Riley then made another attempt, but H. W. Mohr, who is tending bar, stepped up and asked them what the pleasure was, Riley drew the knife and made a vicious stab at Seren cutting him on the left cheek, laying it open to the bone, which turned the knife. Riley then made another attempt, but H. W. Mohr, who is tending bar, stepped up and asked them what the pleasure was, Riley drew the knife and made a vicious stab at Seren cutting him on the left cheek, laying it open to the bone, which turned the knife.

There was great excitement among the Italians and some of them talked of lynching Riley, but cooler ideas soon prevailed.

## PARK CITY

TRIBUNE BUREAU,  
Murray King, Correspondent.

### A LIVELY WEDDING; ONTARIO ACTIVITY

Special to The Tribune.

PARK CITY, March 19.—The wedding of Miss Ella Johnson, a native of Finland, and Herman Olson, a native of Sweden, was celebrated here yesterday by the Finnish and Swedish colonies in a characteristic manner.

During the day a generous supply of solid and liquid refreshments were procured in preparation for the event, and about 8 o'clock in the evening the couple were joined in the presence of about 150 of their countrymen by the Rev. O. M. Elmquist of the Swedish Lutheran church of Salt Lake. A Johnson, brother of the bride, and Miss Sara Olson, sister of the bridegroom, standing up with the couple.

Several large tables, lavishly covered with the peculiar national dishes, occupied part of the upper rooms of the Duder building, which was used as a dance hall.

Late in the evening a well known young man of this place, in company with several visitors, was viciously attacked by a Finlander, who was doing the honors of doing out liquid refreshments. The assailant struck the young man on the back of the head with a beer bottle, shivering the glass and inflicting a cut which bled profusely. The attack, says eyewitnesses, was entirely unprovoked and was probably the outcome of racial prejudice.

The victim of the assault was hurried down stairs by his Swedish friends to avoid a riot. At the foot of the stairs the Swedes, who claimed the honor of giving the entertainment, deliberated for some time upon the advisability of organizing for the purpose of throwing the Finns out, saying these deliberations were going on, several persons who had too loudly expressed their opinion regarding the assault were unceremoniously thrown down stairs. At the time the assault prevailed and the dance went merrily on.

ONTARIO ACTIVITY.

The movement of ore from the Ontario mine to the mill has begun again as a preliminary to the resumption of the mill in a few days. The burned-out motor, which occasioned the shutdown of the mill nearly two weeks ago, will be replaced by a new one now on the way, when the full complement of machinery will be put in motion, with the prospects of a successful run and a constant increasing output.

DEAD AT HEBER.

News came from Heber this morning to the effect that William McMullin, a prominent and esteemed citizen, and the late County Treasurer of Wasatch county, died last night from the effects of an attack of pneumonia. Mr. McMullin is well known in this vicinity, having two daughters who are residents of this place, Mrs. William Byrnes and Mrs. Laban Hilton.

Mr. McMullin has been the victim for years of a peculiar muscular ailment, or creeping paralysis, which has cost him the greater portion of his property and several expensive trips in search of the world's best specialists, but which has not been pronounced incurable.

The deceased was about 50 years of age and leaves a wife and several children in Heber.

NABOB PROMISE.

L. A. Malone and Adam Leichter returned this morning from the Nabob with flattering reports concerning conditions in the Nabob prospect. Messrs. Malone and Leichter have been conducting a series of surface cuts to ascertain as far as possible the extent and contents of the Nabob ledge and are so well pleased over the results of these explorations that they will return immediately to further pursue developments. They brought over with them a sack or two of splendid samples of the vein matter, some of the samples of which there can be no doubt about, as they contain galena, the greater part having the appearance of carbonate, assay returns from which are awaited with anticipation.

PRIZE WINNERS.

Mr. and Mrs. Alfred Mulhall entertained last evening in honor of Miss Nita Murdock of Heber. "Pit" was played and music and refreshments were other features of the entertainment. The prize winners were ladies first, Miss Florence Clark; gentlemen first, N. A. McDonald. About twenty guests were present.

Miss Agnes Tanny entertained about thirty friends last evening for a cure. The prizes were won by ladies first, Miss Jeanette Davidson; second, Miss Nell Goodrich; gentlemen first, E. L. Peterson; second, W. J. Buck.

REPUBLICAN HARMONY  
PREVAILS IN SANPETE

MANTI, Utah, March 19.—Democratic convention, based upon the hope of a disruption in the Republican party because of the very active campaign by three candidates for the judgeship of the Seventh district, is rapidly disappearing, as the fact becomes daily day, more apparent that the Republicans propose to settle that question at the Mt. Pleasant convention.

District Chairman Fitch's early call is generally considered as a wise move, disposing of that important question before the great issues of the year will reach the
